ABOUT INDOOR SKYDIVING

The iFLY Experience

Whether you want to be a master of the sky or learn to fly like a superhero, indoor skydiving offers a truly exhilarating and rewarding experience. Step inside one of our state-of-the-art glass flight chambers where massive wind generators lift you effortlessly into flight on a cushion of air.

From beginner, you'll soon master the flying skills of expert skydivers in our state-of-the-art, fully-controlled, ultra-safe environment. And the all-round viewing platform lets you share the magic with family and friends. Experience the rush that makes the sport of indoor skydiving so big around the world. There's no parachute, no jumping, and nothing attaching you to planet Earth! It's just you, the air, and an incredible adrenaline rush.

- Safe and fun for ages 3 to 103
- Accessible and inclusive for people living with disability
- Each introductory session includes your flights plus training, jumpsuit and all safety gear hire
- An expert, personal instructor is always by your side to offer guidance and reassurance
- With a freefall that lasts longer than an outdoor skydive, it's the real deal!
- Photos and videos are available to view after your flights
- iFLY merchandise and memorabilia is available

Accessibility

iFLY prides itself on offering facilities and experiences that are accessible and inclusive for all. The fully controlled environment means there are no limitations to fly, making indoor skydiving one of the most all-inclusive and accessible activities in the world.

About xReality Group

xReality Group operates Australia's state-of-the-art indoor skydiving centres in Sydney and Gold Coast. Over 5.5 million people have already flown with iFLY globally. Owned and operated by passionate flyers, we have created this incredible facility to share the beauty and freedom of flight with everyone.

FAQ'S

Who can fly?

Anybody can fly! From ages 3 to 103, we believe everybody should have the chance to soar - no experience required! We pride ourselves on being accessible, safe, and fun for the whole family.

How does it work?

You'll arrive at iFLY 1 hour before your start time to check-in. Then, your instructor will teach you the basics with a safety video and briefing, before you get suited up. Finally, you'll fly! After you take to the air, you can view your photos and videos, which are available for purchase along with other iFLY merchandise.

Is there a weight restriction?

iFLY Downunder weight limit is 135kg. Those between 118-135kg require a second experienced instructor (requested 7 days prior) and will incur a \$30 fee. The High Fly add-on is not available to those flyers.

iFLY Gold Coast weight limit is 105kg for those under 180cm tall, or 115kg if over 180cm tall.

What should I wear?

Comfortable clothing such as a t-shirt, shorts, and lace-up sneakers. You'll also need to remove any loose items like jewellery and watches.

Can I fly with anyone else?

New flyers take to the air one-on-one with their instructor. After a few flight sessions, you progress to our Sport packages where you can begin to fly with others.

Can I wear my glasses?

Yes, we have larger goggles to fit over glasses.

Can I do tricks in the tunnel?

When you get started, you'll be with an instructor learning the basics of flight. If you'd like to learn tricks, ask about our Sport Flyer programs to progress your skills!

Is it safe?

Yes! Our technology is tested and checked every morning, using the same safety standards practiced by every wind tunnel across the world.

Is it hard to breathe?

Not at all! It feels the same as sticking your head out the window of a moving car. Relax, and breathe normally!

How long is a flight?

Each flight lasts about 50 seconds, which is the same amount of time spent in free-fall from a 14,000ft outdoor skydive! You can also choose to add more flights to your session, or add on the High Fly to zoom to the top of the tunnel!

Is it scary?

Indoor skydiving is thrilling and exciting, making it loved and enjoyed by all ages from kids through to adults and seniors.

Do I jump in from the top?

No jumping required! Simply stand in the tunnel doorway and lean forward into the wind, where you'll be gently lifted into flight with your instructor standing by your side.

How do I fly to the top of the tunnel?

Certain sessions may offer the High Fly add-on, where your instructor will hold onto you and zoom to the top, twice! Ask about which sessions are available and pricing before booking.

How will my instructor talk to me?

Your instructor will use 4 main hand signals to communicate with you in the wind. You'll learn each of the hand movements and what they mean in your pre-flight training session.

The staff were all so lovely and the experience was made to be incredible for our children. What great energy this business holds. Well done team!

Loved it! Definitely recommend for all ages, even little kiddies had an awesome time.

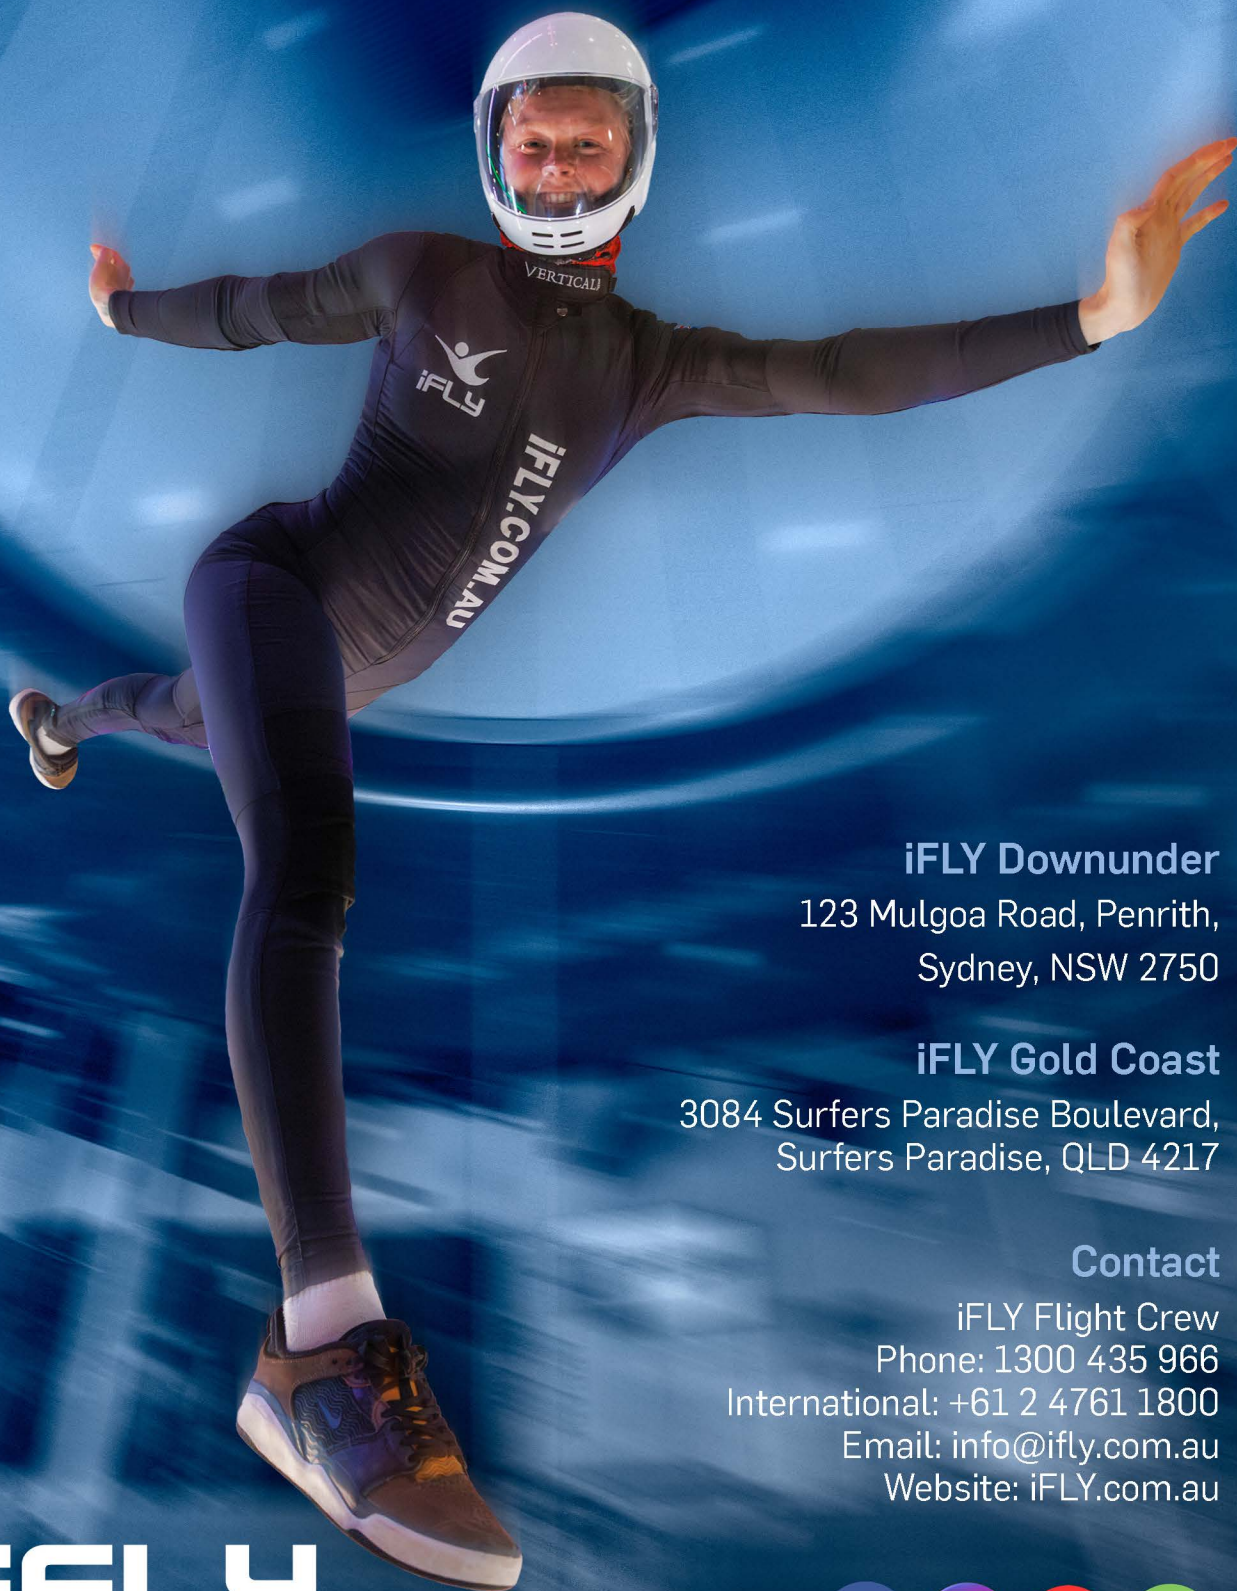

Just AWESOME!
Staff members exceeds expectations!
Amy our flight instructor was just fantastic!

Get ready to fly!
Friendly and helpful staff in polished futuristic venue.
